GET YOUR PEOPLE UP AND OFF THEIR ASSETS!

What makes Bonnie Tick? (er, Run?)

You may notice something different about Bonnie. It starts with those tennis shoes she wears - everywhere. Graduating from San Diego University and her own "School of Hard Knocks," Bonnie was one of the original fitness instructors, marathon runners and Kauai backpacking guides in the 70's. Parlaying those fitness disciplines into a direct sales career, she remained a top 10% sales professional and manager for over a decade. Today, she employs her experience, curiosity, zest for life and people skills into programs that make a difference in the business of life - a cause for celebration today and every day!

What Bonnie Will Do for You

If there was only one thing to say about Bonnie's programs, it would be that each one is totally customized for the client and their participants. That is the common denominator (along with fun!) in everything she does. The common result is results.

What's especially amazing is that she delivered this entirely on her own with zero help. No computer. No PowerPoint. No special effects. No backup band. No backstage crew. No "people" fawning over her. Totally unplugged. Not even a microscopic trace of attitude. Not here, buddy. Working only with a suitcase of props, a pair of white running shoes, and a "hitch your SUV to a star" attitude, Bonnie Dean is a human hurricane of immense heart and boundless energy who throws off more sparks than a Shuttle launch.

TESTIMONIALS

"I wanted you to know what a big hit you were at our Consumer Operations offsite. You did a super job motivating my directors, managers, supervisors and team leads. They were so impressed and captivated by your presentation that many have requested that your program be presented to many of their very own team members.

Your presentation gets team members to start thinking as one cohesive division instead of the fragmented units that often plight the business world. I can sincerely say there is an upbeat attitude circulating in our service centers.

Your enthusiasm is contagious and refreshing and I wish you well as you continue to inspire others. It was a pleasure to have you speak, and I hope our paths will cross again."

Robert Lonardo
Senior Vice President
Blue Shield of California

"We are getting some great feedback from the attendees at our 2000 leadership Conferences about your presentation. Our Kitchen Consultants have commented that your three magic questions and the five pennies in their pocket are ideas which they can apply immediately to their businesses.

Your energetic approach and involvement of the audience was beneficial given our full Conference schedule over the two days. And to think that you could deliver this to both Anaheim and Chicago audiences having come in on the red-eye flight!

Thanks to your flexibility with the last minute changes due to the snowstorm. I am particularly appreciative of the time you spent to fully understand The Pampered Chef and the concerns of our sales force. Your efforts showed a commitment to your audience and the results were right on the mark!"
