MARY FEELEY

LISTEN, LAUGH, AND LEARN!

Mary Feeley's presentations are the perfect blend of education and entertainment. Her audiences listen, laugh, and learn! She has uniquely combined experience from the corporate corner office and the comedy club stage. Her "experiences" are a rare blend of message, motivation and mirth, modeling the speaking style of the future... "edu-tainment."

Mary has 22 years of successful business experience, from front-line to executive level positions in sales, marketing, customer service and public relations. She has worked in both the public and private sectors. In addition, she is an award-winning stand-up comedian who has performed in top comedy clubs throughout the United States. Mary was the first female to be accepted and promoted to headliner comic at the Comic Annex in Houston.

Mary's humor and wisdom possess universal appeal. A professional speaker for eleven years, she has an extensive list of corporate, government, health care, and association clients. Experiences as a corporate spokesperson and trainer, emcee, award-winning comedian and seminar company faculty member have perfected her skills as a keynote speaker and trainer.

Dr Patch Adams has invited Mary to join him and thirty other humor professionals in China for a humanitarian program this year. The program is coordinated by the People to People Ambassador Program. This organization was founded by President Dwight D. Eisenhower to facilitate and encourage citizen diplomacy in global interaction.

In 1999, Mary was awarded the designation of Certified Speaking Professional. The CSP designation is the speaking profession's international measure of professional platform skill. Fewer than seven percent of the five thousand speakers who belong to the International Federation for Professional Speakers hold this professional designation.

A business woman and comedian with superb combined credentials, Mary Feeley provides the perfect mix of hysterical humor, honest insight, real-world skills, and inspiring challenge.

"You are among the best of the keynote speakers that we have offered. Pretty high praise considering that past keynoters have included Tom Peters, John Naisbitt and Carl Sagan."

Keith T. Davidson, Ph.D.

"Of all the luminaries who have taken our stage, from General Colin Powell and Coach Lou Holtz to President Gerald Ford and NBC Anchor Tom Brokaw, only one has been invited back, Daniel Burrus. Going back over a decade, Burrus still holds the best rating for presentation relevance and value to our members."

Lance Humphries

"An audience of over 1,000 leading cable telecommunications engineers is certainly a challenging one. You not only kept their rapt attention, but also expanded their horizons. The positive feedback we have received has been nothing short of phenomenal!"
